

COGNO-SOLVE™ AUTOMATED DECISION MAKING PROCESSING

Business processing spends an exorbitant amount of time and money reviewing disconnected source data to make analytical decisions. Professionals spend their limited time evaluating records, regulations, and trends just to make a decision.

What if there's a way to streamline the process and let professionals use their time more productively?

Meet Cogno-Solve™...

Software Catalyst for Decision Review Automation

- Comprehensive system that can standardize legal, medical, digital and physical data
- Constructs an analytical decision based on pre-determined rules and previous decisions
- Uses multiple technologies including relational data organization, optical recognition, and business rule analysis to derive its decisions
- Maps the neural pathways of analysts and decision makers
- Accelerates processes for thorough, cost-effective results

THE FHAS DIFFERENCE:

- Industry leaders regarding business processing review and analysis
- Extensive government contracting, commercial, and healthcare experience
- Adjudicated over 1.5 million Appeal claims reviews
- Completed over 250,000 insurance claim reviews in past year alone
- Timeliness rate of 100%

EXPERIENCE 'FHAST' PACE:

FHAS was founded for, and lives in, the space between problem and solution. At our core, we are a company of problem solvers, decision makers, and headache relievers. Our staff has the education, training, and expertise uncommon to other organizations. And, while our ability may be uncommon, we believe it is our commitment to our clients that truly makes us unique.
